IT Courses

Afflux IT Solutions Pvt. Ltd.

What types of programs are offered under the IT stream?

Afflux IT Solutions Pvt. Ltd. offers a range of training programs under the IT stream. These include short-term certifications and diploma-level programs designed to equip learners with skills in areas such as software development, data handling, application systems, design, and IT infrastructure. Programs are aligned with current industry trends and are updated regularly to remain relevant to employers' expectations.

Who can apply for training programs?

Our programs are generally open to individuals who have completed at least higher secondary education (10+2). A basic understanding of English and familiarity with computer operations are recommended. For more advanced modules, prior exposure to mathematics or computer science is advantageous, though not mandatory.

What is the medium of instruction?

All programs are delivered in English. Applicants should be comfortable with reading and understanding English, as course materials, assessments, and lectures are conducted in this language.

IT Course List

- **Advanced Java/J2EE Programming –** In-depth Java course covering object-oriented programming, servlets, JSP, and enterprise Java frameworks.
- **Advanced Python Programming –** For learners with basic Python knowledge, focusing on data structures, libraries (e.g. NumPy, Pandas), and real-world application development.
- **.NET and C# Development –** Covers Microsoft's .NET framework, C# language, and Visual Studio tools for desktop and web applications.
- **PHP Web Development –** Teaches server-side programming with PHP, MySQL databases, and building dynamic websites.
- **Android / iOS App Development –** Covers end-to-end mobile development for both Android (Kotlin) and iOS (Swift), including UI/UX design, app architecture, API integration, testing, optimization, and deployment to the Play Store and App Store. Equips learners to build functional, user-friendly mobile apps and prepares them for careers in the mobile development industry.

How are programs delivered?

Training is conducted through instructor-led classroom sessions, virtual classes via video platforms, and blended learning approaches. Learners are provided with academic resources, practical exercises, and recorded lectures for flexible and self-paced study.

Are these programs recognized or certified?

Each learner receives a certificate of completion from Afflux IT Solutions Pvt. Ltd. upon fulfilling the academic and attendance requirements. The programs are designed to align with industry-recognized practices and help learners prepare for employment or further specialization.

What documents are required for admission?

Applicants must submit the following:

- A government-issued photo ID (e.g., Aadhaar card, PAN card, passport)
- Academic qualification proof (e.g., 10+2 certificate or higher)
- A recent passport-sized photograph
- Proof of address (if different from ID)

Additional documents may be requested depending on the level or nature of the program.

What is the process for registration?

Learners may register online through our official website or by visiting our training center. The process includes submitting required documents, completing an application form, and paying the applicable fees. Once registered, learners receive joining instructions via email.

How are the courses assessed?

Assessment may include quizzes, assignments, project work, and participation. Some programs require a final project presentation or written evaluation. Successful completion is based on a combination of attendance, coursework, and practical performance.

Are there attendance requirements?

Yes. Learners are expected to maintain a minimum of 75% attendance to be eligible for certification. Participation in hands-on sessions, group projects, and assessments is mandatory.

What is the refund policy?

Learners who withdraw before the course begins may receive a refund minus a nominal administrative charge. Once the course has started, refunds are not permitted. Refund and cancellation policies are outlined in the registration agreement.

Can I raise concerns or give feedback during the course?

Yes. Learners are encouraged to raise queries or concerns with their assigned mentor or course coordinator. We aim to respond to all queries within 24–48 hours. Feedback is also collected after course completion to ensure continuous improvement.

Will study material be provided?

Yes. Learners receive curated digital study content, practice sets, and reference links. In some cases, hard-copy materials may also be dispatched upon request.

Quality, Safety & Health (QSH) Policy

As a training and consultancy service provider, we are committed to providing quality training and services in the IT, commerce, and safety domains.

Our aim is to become a major player in training and consultancy across key sectors by offering flexible learning modes such as face-to-face, hybrid, and online programs.

We will ensure, as far as reasonably practicable, the health and safety of our employees, learners, and others affected by our activities. Facilities and equipment used by staff and learners are reviewed regularly to ensure safety and compliance.

The following principles guide our Quality, Health, and Safety policy:

- Identify local and international training programs in high-demand fields and deliver them through certified learning centers.

- Conduct training needs analysis and develop content that meets client and industry requirements.

- Comply with applicable laws regarding training, taxation, and data protection.

- Adhere to qualification awarding bodies' guidelines and ensure transparency and integrity in delivery.

- Host webinars and workshops as part of ongoing professional development (CPD) for alumni.

The Director of Afflux IT Solutions Pvt. Ltd. assumes overall responsibility for implementing and maintaining health and safety standards throughout all training and consultancy services.

Data Protection Policy

Afflux IT Solutions Pvt. Ltd. is committed to protecting your personal data as per the Indian IT Act 2000 and IT Rules 2021. We also align with internationally recognized data protection standards applicable to training institutions.

The personal information collected during registration and participation may be shared with authorized partners only for administrative, advisory, and regulatory compliance purposes.

We confirm:

- Personal data will never be sold or used for unsolicited marketing.

- Learners may be invited to surveys or feedback sessions intended to improve our services.

- All data is securely stored, with electronic access controlled via passwords and restricted user roles.

- An Administrative Executive has been appointed as the internal Data Controller.

Learners may request a copy of their stored data, or correction where necessary, by writing to our administrative office.

Equal Opportunity Policy

This policy ensures that all learners, staff, and stakeholders are treated fairly and with dignity, regardless of age, gender, caste, religion, disability, marital status, or socioeconomic background.

Afflux IT Solutions Pvt. Ltd. follows Indian constitutional protections under Articles 14–18 and supports inclusive education and employment practices.

We commit to:

- Provide a safe, discrimination-free learning and working environment.

- Ensure all individuals have equal access to development opportunities.

- Encourage diversity and inclusion at all levels of training and operations.

- Investigate all complaints of discriminatory behavior promptly and confidentially.

All learners and staff are expected to respect this policy and report any concerns to the designated officer. Where required, disciplinary measures will be taken following internal review procedures.
